Learning Outcome or Evaluative Criteria	Comments	80+ Outstanding	70-79 Distinction	60-69 Good Pass	50-59 Pass	40-49 Marginal Fail	<40 Fail
LO4. Design and evaluate deep learning models for practical applications	Marker comments	An exemplary answer, showing complete mastery of the learning outcome, with an exceptionally developed and mature ability to analyse, synthesise and apply concepts, models, and techniques. All requirements of the learning outcome are exceeded, and the answer is free from errors. The answer demonstrates originality of thought, with strong critical reflection and the ability to tackle issues not previously encountered. Ideas are explained with great lucidity and in an extremely structured manner. Technically outstanding, state-of-the-art or creative model with deep insight into design decisions, performance, and limitations. Evaluation is rigorous and clearly supports claims.	An excellent answer, showing mastery of the learning outcome, with a highly developed and mature ability to analyse, synthesise and apply concepts, models, and techniques. All requirements of the learning outcome are covered, and work is free from all but very minor errors. There is good critical reflection and the ability to tackle issues not previously encountered. Ideas are explained very clearly and in a highly structured manner. Well-structured model with strong rationale, thoughtful design, and insightful evaluation. Includes interpretability and ethical awareness. High-quality, clearly contextualised recommendations with well-reasoned risk assessment and realistic mitigation strategies.	A strong answer, showing a sound grasp of the learning outcome and a skillful attempt at analysis, synthesis and application of concepts, models, and techniques. All requirements of the learning outcome are covered, but there may be some minor errors. There is some critical reflection, and a reasonable attempt is made to tackle issues not previously encountered. Ideas are explained clearly and in a well organised manner, with some minor exceptions. Model is appropriate, well-justified, and reasonably tuned. Evaluation is thorough with relevant metrics and some interpretability. Recommendations are relevant and feasible, supported by evaluation. Risks and mitigation are discussed with some insight.	A satisfactory answer, showing a grasp of the learning outcome but analysis, synthesis and application of concepts, models and techniques is mechanical, with a heavy reliance on course materials. The requirements of the learning outcome are covered but with little or no critical reflection and limited ability to tackle issues not previously encountered. Ideas are explained adequately but with some confusion and lack of organisation. Model is functional and appropriate to the task. Justification and evaluation are adequate, though may lack depth or rigour. Provides appropriate recommendations with some awareness of implementation considerations and basic	An unsatisfactory answer. The learning outcome is not met, but it would not take too much to meet it. There is a weak attempt at analysis, synthesis and application of concepts, models, and techniques. Only some of the requirements of the learning outcome are covered. Inability to reflect critically and difficulty in beginning to address issues not previously encountered. Ideas are poorly explained and organised. Limited or partially implemented model with weak justification. Evaluation is basic or inconsistent. Errors present. Recommendations are vague, poorly supported, or too generic. Risk considerations are limited	An inadequate answer and there are extremely serious gaps in knowledge and many areas of confusion. Few or none of the requirements of the learning outcome are covered. There is a lack of serious engagement with the learning outcome and there is no evidence that issues not previously encountered can be addressed. The levels of expression and organisation in the work are very inadequate. Model is absent, fundamentally flawed, or shows serious technical misunderstandings. No evaluation or inappropriate metrics used. Recommendations are missing, irrelevant, or technically incorrect. Risks and solutions not addressed.

		An exemplary synthesis of technical findings into clear, tailored business recommendations. Anticipates real-world deployment issues with mature risk management. Code demonstrates exemplary clarity, modularity, and polish. Includes advanced features such as automation, testing, or deployment readiness. Sophisticated use of visualisations and interpretability. Ethical analysis is deep, contextualised, and linked to deployment scenarios.	Highly professional, readable, and reproducible code. Follows best practices in documentation and versioning. Effective visual storytelling with a clear discussion on interpretability. Ethical dimensions are discussed with insight.	Well-organised and reproducible codebase. Modular functions, comments, and a clean structure are evident. Appropriate visualisations and interpretability are well considered. Ethical considerations are reasonably addressed. Work is well-presented and meets academic standards. Consistent referencing and formatting.	risk discussion. Code is functional and mostly reproducible. Basic modularity and documentation included. Includes some visual outputs. Ethical issues or interpretability techniques are acknowledged. Acceptable structure and tone. Academic conventions are generally followed. Referencing is present but may lack consistency.	or superficial. Code runs with support but lacks structure, clarity, or documentation. Errors or inconsistencies present. Minimal or inappropriate visualisation. Ethical issues were mentioned briefly with limited understanding. Presentation/report lacks polish. Referencing is inconsistent or incomplete. Gaps in academic standards.	Code is missing, non-functional, or disorganised. Cannot be run or interpreted. No visualisation or interpretability. Ethical issues are ignored or misunderstood. Work is unprofessional, disorganised, or shows signs of misconduct. Poor referencing or none.

LO5. Collaborate effectively as part of a group to develop and communicate a practical AI solution by presenting findings through reproducible code, visualisations, or technical reporting	Marker comments	An exemplary answer, showing complete mastery of the learning outcome, with an exceptionally developed and mature ability to analyse, synthesise and apply concepts, models, and techniques. All requirements of the learning outcome are exceeded, and the answer is free from errors. The answer demonstrates originality of thought, with strong critical reflection and the ability to tackle issues not previously encountered. Ideas are explained with great lucidity and in an extremely structured manner. Exemplary team performance. Strong synergy, innovation in collaborative practices, and evidence of mutual support and leadership. Outstanding communication—engaging, precise, and persuasive.	An excellent answer, showing mastery of the learning outcome, with a highly developed and mature ability to analyse, synthesise and apply concepts, models, and techniques. All requirements of the learning outcome are covered, and work is free from all but very minor errors. There is good critical reflection and the ability to tackle issues not previously encountered. Ideas are explained very clearly and in a highly structured manner. Highly effective team collaboration. Strong integration, shared voice, and professionalism evident throughout. Highly effective communication of technical content with strong visual support, narrative structure, and audience targeting. Highly professional in appearance and tone.	A strong answer, showing a sound grasp of the learning outcome and a skillful attempt at analysis, synthesis and application of concepts, models, and techniques. All requirements of the learning outcome are covered, but there may be some minor errors. There is some critical reflection, and a reasonable attempt is made to tackle issues not previously encountered. Ideas are explained clearly and in a well organised manner, with some minor exceptions. Good collaboration with clear task division and coherent group effort. Integration across code and presentation is effective. Clear and well-structured communication tailored to client and technical audiences. Professional and accessible.	A satisfactory answer, showing a grasp of the learning outcome but analysis, synthesis and application of concepts, models and techniques is mechanical, with a heavy reliance on course materials. The requirements of the learning outcome are covered but with little or no critical reflection and limited ability to tackle issues not previously encountered. Ideas are explained adequately but with some confusion and lack of organisation. Team collaborated reasonably with fair contribution across members. Basic integration and shared responsibility. Communicates findings adequately to a general audience. Slides and reporting are acceptable but could be improved in clarity or depth.	An unsatisfactory answer. The learning outcome is not met, but it would not take too much to meet it. There is a weak attempt at analysis, synthesis and application of concepts, models, and techniques. Only some of the requirements of the learning outcome are covered. Inability to reflect critically and difficulty in beginning to address issues not previously encountered. Ideas are poorly explained and organised. Team attempted collaboration but demonstrated minimal coordination. Weak integration across deliverables. Communication is weak or inconsistent. Slides, narrative, or explanations may be incomplete or confusing.	An inadequate answer and there are extremely serious gaps in knowledge and many areas of confusion. Few or none of the requirements of the learning outcome are covered. There is a lack of serious engagement with the learning outcome and there is no evidence that issues not previously encountered can be addressed. The levels of expression and organisation in the work are very inadequate. Clear evidence of poor collaboration. Disjointed work, uneven contribution, or unresolved conflict. Presentation/report lacks clarity, coherence, or key content. Unsuitable for intended audience. Work is unprofessional, disorganised, or shows signs of misconduct. Poor
